

Vinpower Digital works with SHINANO KENSHI CO., LTD (Development manufacturing company of Plextor brand products) on a joint venture project: The PX-DM300.

Los Angeles, CA – May, 2007

Vinpower Digital worked with the SHINANO KENSHI CO., LTD on a joint venture project to develop a compact 1 to 3 slim slot drive standalone manual tower CD/DVD duplicator. This new innovation provides high speed exact digital quality duplication in a new compact case for a smaller footprint in the crowded office space environment. The PX-DM300 offers all the features Vinpower Digital is renown for and provides the high quality exacting standards that has made the SHINANO KENSHI CO., LTD a top recordable drive manufacture. With more products and devices taking up space on our desks and in our offices, there is little room for another device. Being no bigger than a shoe box, the PX-DM300 offers a multi-drive duplicator better suited to fit within the tight quarters of a typical workplace cubicle or office. For more information on this device, please review the following link:
