

# BARE BONE SHARKCOPIER™ *Duplicators*

Introducing the high powered Bare Bone SharkCopier standalone DVD/CD duplicator. The SharkCopier is not only the most advanced duplicator on the market, but is extremely simple to use. With the Bare Bone version you can acquire the drives locally for big savings on the overall cost! The easy to operate control panel offers many advanced features such as:

**Complete Standalone Operation:**

*No PC required to operate the duplicator.*

**Target Range:** 1 to 1 up to 1 to 11.

**SharkCopier Aluminum Case** used to provide a highly functional and attractive exterior:

## Silver SharkCopiers>

Beyond the attractive look of this powerful duplicator, the SharkCopier aluminum casing provides the highest protection against heat and dust, two of the most dangerous elements for a duplicator. This allows the unit to provide optimal performance for an extended period of time.

**Multi-Language capability** for the text on the LCD screen to be displayed in English, Spanish, French, Japanese & more.

**Auto-Counter Technology:** Displays the total number of discs successfully copied compared to desired output for each project.

**Load & Copy Supported:** Simple 1 button duplication from the Hard Drive providing high quality copies with minimal effort.

**Partition/Image Name Editing:** Simply stated you can name the images stored on the internal hard drive partitions.

**Drive firmware upgradeability:** Capable of upgrading the drives for selected brands through the Duplicator.

**Account management (password protection):** This function will authorize only specific user(s) to operate the duplicator with their preferred settings. Able to assign numerous passwords for multiple users.

**Industry leading 128MB to 256MB buffer memory:** Exponentially optimizes duplication quality.

**Future functions upgradeable through firmware:** Duplicator able to upgrade future software updates via Firmware CD.

**Disc Info feature:** Provides the format of the disc & the disc manufacturer's information.

**AutoCopy feature:** Fast duplication without pressing any buttons.

**Fast Key Support:** 4 fast keys for quicker operations.

<b>Specifications</b>	
<b>Model:</b>	Bare Bone SharkCopier DVD/CD Stand-Alone Manual Tower Duplicator
<b>Target:</b>	2 Bay, 4 Bay, 6 Bay, 8 Bay, 10 Bay, 12 Bay
<b>Hard Drive Options:</b>	Supports PATA HDD for this range 80GB, 120GB, 160GB, 200GB, 250GB, 300GB or up
<b>Display:</b>	20 x 2 LCD
<b>Buffer Memory:</b>	128 MB or 256 MB
<b>Language Support:</b>	English, Spanish, French, Japanese, etc.
<b>Partition Naming: *</b>	Up to 8 characters per partition
<b>Account Management:</b>	32 users (Standard License) or 64 users (Premium License)
<b>Auto Counter:</b>	Up to 9999 per Title
<b>Drive Firmware Update:</b>	Yes
<b>System Firmware Update:</b>	Yes
<b>Load &amp; Copy Supported: *</b>	Yes
<b>Burn Proof Support:</b>	Yes
<b>Power Supply:**</b>	Input : 90 ~240 AV, 500 WATT Max
<b>Operating Humidity:</b>	20% ~ 80%
<b>Temperature Extremes:</b>	40°C (104°F) / 5°C (41°F)
<b>Regulations:***</b>	FCC, CE, & UL

We can customize the controller and the LCD faceplate to best match your needs, whether it's a small name change or a more complex alteration of the entire programming, if it's feasible we can make it happen.

### **How The SharkCopier™ Aluminum Case Extends The Life Of The Duplicator Drives:**

The 2 most dangerous elements for any drive are heat and dust. While the drives are in use, they generate a significant amount of heat. To further prevent the drives from overheating and burning out, a fan is needed to pull the hot air out and suck in fresh air to cool the drives down. The problem is, the fresh air has to enter the duplicator through the front of the unit going directly through the drives. This causes the second major threat to a drive, the culmination of dust on the laser head. As the air is sucked through the front of the duplicator, dust particles will collect inside the drives and cloud the laser head. The laser head is the optical nerve center of the drive and conducts the process of burning onto the discs. As dust accumulates, it makes it harder for the laser to perform, forcing the drive to work harder and reducing the lifespan of the drive. The SharkCopier™ is specially designed with a special "gill" venting system on each side of the case to allow the air flow into the machine without passing through the drive face. This eliminates approx. 80% of the harmful dust from entering into the drive itself and landing on the laser head. To further prevent dust from entering the drives, the SharkCopier™ is equipped with exterior drive door covers to block harmful dust particles. In addition, the SharkCopier™ case is made out of aluminum, which diffuses harmful heat up to 3 times faster than a standard steel case. By decreasing the amount of heat and dust from disrupting the capabilities of the drives, the SharkCopier™ can extend the life of the drives by an average of 20% ~ 30%.

\* Requires a Hard Drive to be installed.

\*\* The power supply will differ based on the number of targets.

\*\*\* The UL marking only applies to specific units.
