PX-891SAF PLUS Optical Disc Drive

Supported writable media			
	CD-R/RW	DVD±R/RW	DVD±R DL
DVD Family	Write Speed	DVD+R DVD-R DVD+R DL DVD-R DL	24X maximum 24X maximum 8X maximum 8X maximum
	Read Speed	DVD-ROM	16X maximum
	ReWrite Speed	DVD+RW DVD-RW	8X maximum 6X maximum
	Random Access Time	200ms	
CD Family	Write Speed	CD-R	48X maximum
	Read Speed	CD-ROM	48X maximum
	ReWrite Speed	CD+RW	24X maximum
	Random Access Time	140ms	

Large volume duplicators care about two key elements when it comes to Optical Disc Drives (ODD); 1) More Robust Mechanical Components, 2) Exceptional burning quality and longevity. Vinpower now offers the Plextor PX-891SAF PLUS, for the best in class quality and lifecycle ODD, developed for high production duplicators.

Plextor PX-891SAF PLUS:

1. Created a fixed BOM design by ensuring the main ODD components will not change due to cost down efforts, maintaining quality and reliability.

2. The PX-891SAF PLUS uses enhanced material for the drive tray belt, which allows the tray to operate 6 times longer than a standard ODD.

3. Uses a top grade OPU with a better heat sink kit. This increases the burning stability (better quality), as well as enhances the drives sustainability and reliability.

PX-891SAF

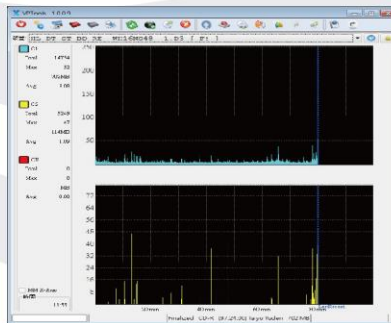

PX-891SAF PLUS

4. Drive can perform 24/7 operation by transferring heat faster through higher grade IC heat sink kit.

5. Supports 8X burning speed for CD-R. Unique quality for greater Audio Quality Recording (for music enthusiast).

6. Plextor PX-891SAF PLUS ROBOT:

PX-891SAF Plus ROBOT offers consistent tray extension for Robot Version. The Disc loading tray and firmware is designed specifically for automated robotic disc publishing hardware.
