

# Vinpower Digital's Ripbox

The Best Gifts come in small packages

Model	RipBox25-S1T	RipBox25-S1T-SW
<b>Model Type</b>	Automatic ripping station	
<b>Max Disc Capacity</b>	25	
<b>Number of Recorder Drive</b>	1	
<b>Software Included</b>	ImgBurn	BPR2000 Lite Labeling and Burning Software
<b>PC Interface</b>	USB 2.0/1.1	
<b>PC System Requirement</b>	1GHz Processor Processor or better 512MB RAM or higher for better performance Windows XP, Vista, 7 (32 or 64Bit) 2 USB 2.0 Port Administrator privilege required	
<b>Featuring Recorder</b>	24x DVD/CD Writer	
<b>Maximum Copy Speed</b>	DVD-R: 24x, DVD-RW: 6x, DVD+R: 24x, DVD+RW: 8x, DVD-R DL: 12x, DVD+R DL: 8x, CD-R: 48x, CD-RW: 32x	
<b>Formats Supported</b>	DVD-ROM, DVD-Video, DVD-Audio, DVD+R Double Layer, DVD-R Dual Layer, DVD-R, DVD-RW, DVD+R, DVD+RW CD-ROM (Mode1 & Mode2), CD-ROM/XA (Mode2 form1 & form2) CD-DA, Mixed-Mode Video CD, CD-I, Karaoke CD(VCD)Photo CD (Single & Multi-session) CD-Extra, HFS, CD-Bridge ISO9660, CD-R, CD-RW	
<b>Firmware Upgradeable</b>	Yes	
<b>Power Supply</b>	Input: 90 ~ 240 V	
<b>Operating Humidity</b>	20% ~ 80%	
<b>Temperature Extremes</b>	40oC (104oF) / 5oC (41oF)	
<b>Regulations</b>	FCC, CE, RoHS, UL, CB	
<b>Manufacturer</b>	Vinpower Digital	

### Basic Operations

- Flexible operation modes: Works as an automated LightScribe printer and/or duplicator

### System Advantages

- Automated Robotic Operation: System runs duplication and LightScribe printing applications through a robotic interface allowing for hands free lights-out operation
- Copy Protection Capable: Optional feature available to provide DVD & Blu-ray\* video copy protection to greatly diminish the ability for unauthorized duplication and ripping proprietary content

### Ripping Support

- Provides Data Ripping: All files and folder structure is cloned to your hard drive
- Supports Audio Ripping: Able to rip music files onto a PC hard drive
- Supports Archival Back-up: Capable of operating as an archival rip station for important back-up of content onto optical discs or from discs onto a server or HDD
- Supports Job Queues: Provides the ability to queue multiple jobs for unattended operation of multiple different duplication and or printing assignments
- Supports Multiple Job Queues: System is able to maintain multiple job queues for several users so that each individual user can maintain their own dupe and print files for use at a later date
- Multi-master read-in support: Users can read-in a stack of masters and create ISO images

### Software Features

- Provided Publishing Software: The unit comes standard with the ImgBurn software (which can also be obtained freely from <http://www.imgburn.com>), or is available with the more powerful optional BPR2000 Lite software which supports the broadest set of features and capabilities.
- Third Party Software Support (Optional): RipBox hardware can be controlled through many third party software's for added convenience and ease of use.
- Software update Available: Able to update proprietary software and firmware for future functionality
- Extensive Log File: Maintains an extensive log file of the systems operations for easier troubleshooting if needed ( All jobs are auto logged)
- System error notification: System will email listed users notifications when jobs have been completed or to report any potential error conditions that may arise

### Robotics Operation

- Hi-speed 24/7 operation: Able to perform constantly 24 hours a day, 7 days a week without fear of overheating with quick reliable robotic operation.
- Friendly Interface: All job functions and system alerts operate in an easy to use and similar user interface for convenience and ease of use

\*Blu-ray video copy protection to be added in the future and only available on Blu-ray equipped models.

\*\*Specifications available for each model depend on the software feature chosen to operate the equipment. Not all features are available using the ImgBurn freeware.
